I don't get sick anymore

By Deborah Larson on October 21, 2016

I've had problems for YEARS getting sick with sinus and upper respiratory infections. It started with a cold and always built into something more. With the MANY benefits of cayenne, I'm feeling much better. My nose isn't constantly plugged anymore. I have limited post nasal drip, and I can sleep all night and breathe through my nose. This has definitely been a life saver for a long time

[Report abuse](#)**Got really bad hives from it.**By [Wes](#) on January 21, 2017Package Quantity: 1 **Verified Purchase**

So I took 5 pills and immediately started breaking out in hives. I'm obviously allergic to it. That's not going to stop me from taking it tho, I just mar take a smaller dose to start and then slowly work my way up because I've never been allergic to cayenne pepper before. After reading the health benefits of it I'm definitely going to be taking it all my life. If this brand ends up continuing to make me break out then I may try another brand. I also didn't feel the burn that everyone talked about but I'm not deducting stars for that because those were just other people's review opinions. I am deducting one star so far tho because that's weird that I would break out in hives having never been allergic to cayenne before.

Need customer service? [Click here](#)**Why not?**By [N. Miller](#) on January 12, 2017Package Quantity: 1 **Verified Purchase**

I regularly season my food with hot sauces. Now we're learning there's medical evidence that capsaicin may infact assist the body in zapping cancer cells? I'm all in. I take two after a meal and they're not difficult going in or *ahem* coming out.

[Report abuse](#)**One a day for good digestion and more.**By [Davirgi](#) on January 1, 2017Package Quantity: 1 **Verified Purchase**

I usually only take one a day with either lunch or dinner and this is good for digestion as it works like a prebiotic to make probiotics work better. Make sure you take it after a meal as it works best with food.
